Maize mill reverse engineering

2024 engineering internship

Engineering problem and work

Measured and reconstructed an approximately one-metre agro-processing mill, developed sheet-metal geometry in SolidWorks, resolved assembly-fit issues, and drafted 15+ fabrication drawings in AutoCAD.

Process

Measurement → CAD → fit review → production drawings

Tools

SolidWorks · AutoCAD · Sheet metal · Metrology

Scope and status

Industrial equipment, manufacturability and documentation

Portfolio case-study brief based on coursework and user-provided descriptions. This is NOT a copy of the original laboratory report. Diagrams on the website are explanatory illustrations, not photographs or original experimental plots.
